- Pupil:** Good morning Mrs. Ndegwa.
Headteacher: Good morning Karimi. How may I help you?
Pupil: Our Agriculture teacher asked me to see you.
Headteacher: Sure, have a seat. I am aware that your class wishes to visit Fanaka Farm. How will the trip to the farm benefit you?
Pupil: That's right, Mrs. Ndegwa. First, we would like to know more about fruit farming. The farm has a very big orchard.
Headteacher: That's a very good idea. Is that all?
Pupil: No, there is more. At the farm, we will also learn a lot about weeding and the farm tools.
Headteacher: How will the farmer benefit from the tour?
Pupil: Twenty learners will tour the farm. We will share some information about manure with the farmer.
Headteacher: I am sure the farmer will be very happy. Thank you, Karimi.
Pupil: You are welcome, Mrs. Ndegwa.

Read the passage below and then answer questions 11 to 15

Having clean water and living in a clean environment is still a challenge in the country. Many people across the country have suffered due to the drought caused by human activities. In rural areas, people walk for long distances in search of water. The water they get is usually dirty and unsafe for use. This is the same in urban areas. The taps run dry and people have to buy water from unsafe sources.

This situation is not good. Dirty water causes diseases such as cholera and typhoid. The government has always put measures in place to stop the spread of such diseases. In the event of cholera outbreak, the health workers help those affected. Information is also shared to the public to help them take care.
